MARIANO MARCOS STATE UNIVERSITY
College of Teacher Education

Objectives

1. Describe the a) new learning environment b) new learning content.
2. Discuss the multiple ways of learning
3. Characterize the a) new types of learners b) 21st century skills
4. Describe the new type of teachers

MARIANO MARCOS STATE UNIVERSITY
College of Teacher Education

The changing global landscape and the 21st century skills for teachers

“We are in era of borderless “Flat” world. Barriers have been broken by new information and communication technologies”

The New Learning Environment is

Learner centered

New spaces and borderless

Enhanced opportunity for creativity and innovations

Use of ICT

THE New learning content is

Integrated /interdisciplinary

Demand driven

Emphasis on learning tools on how to retrieve knowledge

Balance of scientific , technological , cultural, global, local
concepts

The New Processes of Learning and how these will be facilitated

We now have the AI artificial intelligence .

Multiple ways of learning :

- a. **Face to face** –learners and teacher are confined in the same learning space at the same time
- b. **Distance learning** – teaching learning is mediated by modules or modern technology (on – line or off line) synchronous or asynchronous
- c. **Blended modalities** - face to face and distance learning

Experiential and life long - learners are immersed into the real life situation such that learning becomes more authentic and meaningful .

The New types of learners

- A confident person who thinks independently and critically and who communicates effectively .
- Self directed and who questions, reflects and takes responsibility for his/her own learning
- A concerned citizen, informed about the world and local affairs, has a strong sense of civic responsibilities and participates actively in improving the lives of others.
- A member of the new generation with different ways of thinking and responding
- Comes from diverse background, multi cultural, and multi-generational as coming from different age groups of lifelong learners.

Life and Career Skills

Flexibility and adaptability –multitasking

Initiative and self -direction – set goals by themselves , commitment to learning as a lifelong process

Social and cross –cultural skills – respect cultural differences and work effectively with others , open minded

Productive and accountability

Leadership and responsibility .

The New Type of Teachers must possess the following characteristics :

1. Clear standards and accountability
2. Use broad pedagogies including inquiry- based learning , cooperative learning
3. Skillful in the integration of ICT in pedagogy
4. Skillful in the use of assessment to guide teaching and learning
5. Great understanding of local and global cultures
6. Skillful in action research to diagnose and solve classroom problems based on evidence
7. Practice the core values of inspiring teachers
8. Develop life and career skills for the 21st century and beyond

UNESCO's Four Pillars of Learning from Delors Report Learning :A Treasure from within

Within each child is a treasure

- Learning to Know - implies thirst for knowledge and acquisition of such knowledge
Learning how to learn throughout one's life
- Learning to Do - application of learning
- Learning to Be – developing the potentials of each individual .
continuing education improve self knowledge and self esteem .
what would you like to be ?
- Learning to Live together - relationships among people . It is bringing in together a community to work harmoniously, to live in peace and prosperity and to show respect and concern for others.
